ADMIRALTY PLEASED WITH ROJESTVENSKY

Much Satisfaction Expressed at Bold, Direct Manner in Which He is Carrying Out His Plans.

REPORT OF BATTLE DENIED AT TOKIO

Russian Hospital Ship Orel Has Many Wounded Men On Board.

CRUISER RALEIGH HAS SAILED FROM LABUAN--THE TRIAL OF STOESEL BEGUN YESTERDAY. CRISIS EXPECTED IN RUSSIA AND APPEALS POUR IN FOR MILITARY PROTECTION.

By Associated Press. St. Petersburg, April 14.--The admiralty is pleased with the action of Rojestvensky. Much satisfaction and admiration is expressed in naval circles at the bold direct manner in which Rojestvensky is carrying out his plans.

No Engagement. Tokyo, April 14.--The naval department pronounces the reports of a naval engagement off Saigon to be unfounded.

Wounded Russians. Manila, April 14.--Rear Admiral Train, in command of the fleet in Asiatic waters, received a telegram at 3 o'clock this afternoon from Saigon, the capital and principal port of French Cochinchina, reporting the arrival there of the Russian hospital ship Orel at 3 o'clock on the morning of April 13. Stoesel Not Condemned. St. Petersburg, April 14.--There is no truth in the report from Craquel that the Lieutenant General Stoesel had been condemned to death by the commission appointed to inquire into the surrender of Port Arthur. His trial only began to-day.

The Daps Notification. St. Petersburg, April 14.--Dispatches from Washington showing that Japan officially notified the United States when the rupture with Russia occurred that no act of hostility would take place till after a formal declaration of war had been made, whereas hostilities broke out February 8, and the declaration of war was not formal until February 10, attract attention here. Although the dispatches arrived too late for news, comment this morning, there is considerable speculation as to the effect of the publication of the statement at this time. It is regarded as a friendly manifestation towards Russia on the part of the United States. Russia having always contended that the statement that M. Kurino, former Japanese minister at St. Petersburg, to Foreign Minister Lamsdorf when he presented the note severing diplomatic relations, in which he expressed the hope that the rupture was only temporary, gave Russia no reason to anticipate an attack without warning in the shape of a declaration of war.

Crisis is Imminent. St. Petersburg, April 14.--Developments all point to a crisis in the present agitation among the workmen of the cities and the peasants in the country on May day, and appeals are pouring in from all quarters of Russia for military protection. The St. Petersburg workmen are preparing a great demonstration. Arms and bombs are in circulation on a large scale. Wealthy persons who ordinarily go to villas on the islands of the Neva, or to neighboring country places, this year are going abroad. The government has taken few special measures to meet the situation, evidently relying on the troops and police to guard the capital. The latter are extremely active. All the prominent agitators are being arrested or have already been sent back to the villages from which they originally came.

Business Portion of Maine Town Destroyed

By Associated Press. Springvale, Maine, April 14.--The main portion of the business section of Springvale, together with many dwellings, was destroyed by fire to-day. Assistance sent by the Portland fire department arrived in time to prevent the entire village from being obliterated. In all thirty-five buildings were burned. No lives were lost. The fire started in a boot and shoe factory owned by the W. R. Usher & Son Company, of Newburyport, Mass., and spread rapidly to a group of wooden buildings in the vicinity. The local fire fighting facilities were wholly inadequate and for several hours the flames were in complete control. Aid was asked of Portland, Sanford, Alfred and Rochester, N. Y., but before sufficient help arrived, many of the largest buildings were leveled. Besides the Usher factory, the structures destroyed were a vacant shoe factory formerly occupied by the Shaw Goosing Company, the Odd Fellows block, Western Union Telegraph office, New England Telephone exchange, Tibbets hotel, Masonic block containing a dry goods store and restaurant, Polson Brothers furniture store, and the drug stores of William H. Wood and C. H. Pierce. The town hall was damaged, as also were the churches.

Hopeful Outlook for Settlement of Strike

By Associated Press. Chicago, April 14.--A more hopeful outlook for settlement of the Montgomery Ward teamsters and garment workers strike developed to-day. Labor leaders and an attorney representing the employing tailors association held a conference with Mayor Dunne and as a result it was stated that Montgomery Ward & Co. were willing to take back the striking garment workers. The point upon which settlement would hinge was the basis upon which the garment workers would be taken back. President Cornelius P. Shea, of the teamsters' union, President Doid, of the Chicago Federation of Labor, and President F. H. Rickett, of the garment workers, represented the strikers in the conference. Attorney Martin J. Isaacs spoke for the employing tailors association. After the conference, which was preliminary, Attorney Isaacs left to confer with the employers previous to returning again to the mayor.

Limbs Were Wrapped in Tin Foil Presumably for Sea Voyage.

BODY PLACED IN LEADEN CASE SO IT COULD BE EASILY REMOVED IF CLAIMED BY UNITED STATES--IDENTIFICATION COMPLETE IN EVERY PARTICULAR.

By Associated Press. Paris, April 14.--The remarkable search which Ambassador Porter has conducted for the body of Paul Jones, has been crowned with success by the discovery of the body and its identification to-day by the highest French medical experts as unquestionably that of the famous admiral who founded the American navy.

The men who examined the body were doctors Capitan and Papillaut, distinguished professors of the School of Anthropology and recognized authorities on such investigations. After a most minute examination the following facts were substantiated:

Length of body five feet and eleven inches, admiral Jones's exact height. The size and shape of the head agreed with several peculiarities identical with the head of the admiral. The hair is dark brown, same as the admiral's, and in places slightly gray, indicating a person of about his age, 45 years. The hair is long, reaching below the shoulders and is combed back and gathered in a clasp at the back of the neck. The face is clean shaven. All of this corresponds exactly with the descriptions, prints and busts of the admiral.

The limbs are in good condition and one article bears an initial, either a "J" or an inverted "P." The body was carefully packed, and the limbs were wrapped in tin foil, presumably for sea transportation as indicated in a letter of the admiral's nearest friend and pall bearer at the funeral, Colonel Blackden, who said: "His body was placed in a leaden coffin so that in case the United States, which he had so essentially served, should claim his remains, they might be more easily removed."

PRESIDENT IN COLORADO

Crossed State Line at Noon and Was Met By Governor McDonald.

SPECIAL HUNTING LICENSE ISSUED

ALLOWING HIM TO KILL ANY ANIMALS HE MAY DESIRE--HEAVY SNOW AROUND THE CAMP--A HORSEHAIR BRIDLE FOR MISS ALICE ROOSEVELT WILL BE PRESENTED.

By Associated Press. Trinidad, Col., April 14.--President Roosevelt crossed the line into Colorado at noon to-day. Governor McDonald, of Colorado, and a party, met the president at Emery Gap, New Mexico, where the governor presented the president with a specially engraved hunting license, permitting him to kill any animals he may desire in the state of Colorado.

The president's trip through Colorado is a continuous ovation, for though the train did not stop at the small stations, crowds gathered at all, who cheered him enthusiastically.

TWO FEET OF SNOW AROUND THE CAMP.

New Castle, April 14.--With the snow two feet deep in every direction from the camp and from three to five feet deep in the hills, with the snow storm still continuing it is possible that President Roosevelt will be compelled to delay his hunt here or content himself with smaller game than the grizzlies he has planned to kill. For a week now the snow has fallen day after day. Not twenty-four hours has passed without its storming. All that prevents the roads and trails from being absolutely impassable is the warm weather that has intervened and to a great extent melted the snow. The guide Wells made the twenty miles ride from camp Roosevelt and his horse was worn to exhaustion.

"The weather is at least three weeks behind the normal," he said. "There has been an unusual amount of snow here this winter but not in ten years have I seen the conditions so bad at this season."

According to Wells, the camp is now in perfect shape. It has been practicable to track the game with dogs and to follow with horses. This is considered one of the most dangerous sports and the bad condition of the ground makes it doubly dangerous now.

A full grown grizzly can easily race away from a horse and the dogs can almost equal the speed. Now that the reception to President Roosevelt and the party is assured, the women of New Castle have decided to do their share. As soon as the president alights from the train a committee will surround him and will escort him to the club rooms, where, on behalf of the women of Garfield county, he will be presented with a horsehair bridle for the use of Miss Alice Roosevelt. The bridle itself is a work of art, which took over a year to complete. All of the straps, including the reins, are made of pure white horse hair and the buckles are of solid silver.

Souvenir For President. Colorado Springs, Colo., April 14.--Upon the return of President Roosevelt to this city from his hunting trip, about the middle of May, he will be waited upon by the members of the Pike Peak Press Club of this city, and presented with one of the club's handsome gold badges as a souvenir of his visit. At the monthly meeting of the club the president was elected an honorary member, and the badge voted to him. The badge will be made out of pure Cripple Creek gold.

It is also planned to take the president to the summit of Pike's Peak on the cog road, and an extra effort will be made to have the road open by the time he returns.

\$25,000 LOSS BY NEW YORK FIRE

ONLY WALLS OF SWEAT SHOP TENEMENT ON EAST SIDE WERE LEFT STANDING.

By Associated Press.

New York, April 14.--Only about \$25,000 loss was caused by fire early to-day which destroyed a six story building at 129 and 131 Hester street in the heart of the Hebrew settlement on the lower east side. Only the front walls were left standing. Early reports were to the effect that scores of persons were asleep in the building but these proved untrue. There was no one on the premises except the watchman. The building was filled with sweatshops. A tenement adjoining was damaged on the upper floors. Policemen routed about 150 persons from their beds and drove them to the street but no one was hurt.

Owing to the recent disastrous tenement fire in Allen street, the blaze this morning caused intense excitement among the dwellers in Hester street. The police experienced great difficulty in driving back a dense crowd, every member of which insisted on rushing to the rescue of relatives within the fire lines.
